Amazon Last Mile Routing
RESEARCH CHALLENGE

Supported by the MIT Center for Transportation & Logistics

Certificate of Participation

This certificate is presented to

Wentao Zhao

for successfully participating in the 2021 Last Mile Routing Research Challenge hosted by Amazon and supported by the Massachusetts Institute of Technology (MIT) Center for Transportation & Logistics.

The goal of this research challenge was to develop innovative approaches leveraging artificial intelligence, machine learning, deep learning, computer vision, and other non-conventional methods to produce solutions to the route sequencing problem, which would potentially outperform traditional, optimization-driven approaches. The submissions of all participating teams were thoroughly evaluated by experts from Amazon and MIT.
